

European Championships 2020 Čzeske Budoviče

Cancellation

The Covid-19 Virus has paralyzed normal life around the world.
All sporting activities are banned at the moment.
Nobody knows what will happen in August.

I have had a discussion with the host Milan Zabloudil.

We have had a discussion in the WA1500 board.

No one can properly plan for a competition that may or may not happen.

Therefore, the decision had to be taken with a heavy heart: we have to cancel the competition.

It is cold comfort for us that other and even bigger events like the Olympic Games has been canceled as well.

If the AGM will follow our proposal we will act as follows:

We will switch the competition to the year 2021 and hope that it will be possible to hold the European Championship then. The World Championships will be switched to 2022.
2020 will be the "Corona" year.

Once more our apology for this difficult but necessary decision.

We know you all had worked hard to prepare yourself and your equipment, not to mind the effort to arrange your travel and accommodation.

There`s nothing else for me but to wish you, your family and friends all the best in this Corona times and stay safe.

Hope to see you as soon as possible on the range in a good and healthy condition.

Yours sincerely

Friedrich
